

Games to Play with a Deck of Cards

Aim

- The game aims to practice number bonds.

Equipment

- The game is played with a full deck of cards.
- Picture cards are worth 10, and aces are worth 1.

How to Play

- The game is played with two or more people. One person is the dealer.
- The dealer turns over one card at a time. For example, 5.
- The dealer chooses a number and asks, "What number do I need to add to 5 to make 7?"
 - If correct, the player keeps the card.
 - If incorrect, it goes back into the deck.
- You can also check subtraction facts. For example, when turning over a picture card, ask, "If I subtract 6 from 10, what is the answer?"
